LEGISLATIVE CONFERENCE SPONSORED BY CIVIC LEAGUE

The Legislative Committee of the Christian Civic League is sponsoring a series of Legislative Conferences aimed at informing citizens about legislation of a social-moral concern. Attention will be called to all of these measures introduced up to date of the particular conference.

Sessions are being held at Sanford, Portland, Augusta, Bangor, Machias, Norway, and in Bridge-water for the Aroostook county area. The meeting at Norway will be at the Methodist Church, Beal Street, 7:30 p. m. on Feb. 3.

It is expected that several legislators will be present in their respective areas. There will be a resume of measures currently being considered, and a forum for questions and discussions. Conference leaders will be answering the question: "What can I do, as Mr. Average Citizen, to promote good government and good legislation?"

All sessions are open to the general public. It is hoped that many students from local High Schools will also take this opportunity to hear these issues discussed and learn more of the mechanics of state government.

NEW TRIBES MISSIONARY TRAINEES

Mr. and Mrs. James A. Browne of Bethel have joined the New Tribes Missionary Institute. The Brownes with their three children, Larry, Debbie and Dennis will be leaving soon for Jersey Shore, Penna. where they will be training for a year in "Bant Camp".

The Bant Camp is designed to train the rigors and demands of life on a pioneer mission field. To take the Gospel to men and women who have never heard, demands courage on our part. Timothy 2:3. These therefore endure hardness as a good soldier of Jesus Christ.

We as a family do not count it as sacrifice, but as a step of faith. Having given our lives to Christ for service we count it rather a privilege to be of service in this way.

We are told not to lay up earthly treasures that do not last and can not be taken with us anyway, but to lay up spiritual treasures in heaven.

For where your treasure is there will your heart be also. Matthew 6:19-21. But rather see so first the kingdom of God and his righteousness and all these things will be added unto you. Matthew 6:33.

SEWALL CO. SUBMITS CAPITAL IMPROVEMENT PLAN FOR TOWN OF BETHEL

The James W. Sewall Co., Old Town, has submitted a capital improvement program for the town of Bethel as one of its series of interim reports presented to the Bethel Planning Board. The reports are prepared as part of a program for the development of a comprehensive town plan, and are subject to revision.

The improvements have been assigned priority in the program and are spread over a 20-year period.

In the five years, 1967-71, the report lists the following proposed improvements:

Sewerage — Construct about 21,000 ft. of sanitary sewer lines, 4,500 ft. of force mains, 5,000 ft. of storm drainage separation mains, two pumping stations, and sewage treatment facilities, at an estimated cost of \$581,000. This includes Federal and State Grants of \$240,000 and the issuance of revenue bonds in the amount of \$341,000.

Construct during the same period an addition to the Town Garage at an estimated cost of \$2,000 to be financed by current revenue.

By the use of Town Road Improvement Funds to continue to improve the Grover Hill Road at the rate of one-half to three quarters of a mile per year. The Sewall Co. also would recommend the use of State Aid Funds to continue improvement of Route 35 Middle Intervale and East Bethel roads.

During the years also the Alder River bridge on Route 26 should be reconstructed using State Funds. After the sewerage work is completed Main Street should be reconstructed, about 2,400 ft., at a cost of about \$30,000, to be financed by a capital reserve fund for streets.

To finance from current revenue the reconstruction of existing sidewalks, and construct new sidewalks, at a rate of about 250 feet per year for a 5-year total of 1,250 feet.

During the first five-year period the program would call for construction of a buffer screen at the Town Dump consisting of trees, shrubs, etc., to conceal the dump from the highway and prevent the blowing about of papers, at a current revenue cost of \$1,600.

The Sewall Co. program advocates municipal ownership of the Bethel Water Co. at an estimated cost of \$163,000 and possibly an extension of the water line to the SAD 44 district high school. (The board of selectmen and a majority of the budget committee are reportedly favorable to the formation of a district to operate the water company. In the event of public ownership of the water utility financing would be by revenue bonds and, in the case of contractors and improvements to the system, possible federal grants.)

Development should be initiated of a small reservoir path on the Androscoggin River at West Bethel, and an in-town recreation area in the eastern bounded by Railroad, Elm, Winter and Mechanic Streets. Provision should be made for an addition of a children's room at the Bethel Library.

Construction of town office quarters adjacent to the fire station at an estimated cost of \$23,000 to be financed by a ten-year note. This would provide offices for the town manager, secretary, town clerk, selectmen, a vault.

For the period 1972-70 the program continued on Page Eight

MOTHERS MARCH TONIGHT

The annual Mothers March, benefit of the March of Dimes, will be held in Bethel this Thursday evening. Town chairman, Mrs. William Cousins, has announced that Charles Hurd has been appointed treasurer of the Bethel campaign.

SCHOOL DIRECTORS TO HOLD SPECIAL MEETING AT BETHEL, MONDAY EVENING

The Directors of SAD 44 will hold a special meeting at Crescent Park School, Bethel, Monday evening, Jan. 30 at 7:30 p. m. to meet with representatives of the SAD 44 Faculty Club to discuss the Club's request to re-open negotiations of the 1967-1968 salary schedule, and to take any action relative to re-opening negotiations.

TO OPEN SCHOOL CONSTRUCTION BIDS AT PUBLIC MEETING FEB. 15

As previously announced, the plans for the new SAD #44 Junior-Senior High School went out to bid on January 20th. The opening of these bids will be Wednesday evening, February 15th, at the Crescent Park School. This special meeting of the Board of Directors is open to the public.

According to Raymond Mercer, the project architect, at least three general contractors have indicated an interest. Others are expected to do so before the end of this week.

Work on the school site is progressing on schedule. This aspect of the work is under contract to the P. H. Chadbourne Company, of Bethel. Several months of construction time will be saved by having the work done now. Gravel fill has been used as a base for roads and under fill areas of the building. This extra work was included in the contract.

Over 60,000 cubic yards of material "cut" from the parking lot and building area is being utilized to make an athletic field. This area can be used as a combination field for football, baseball, and soccer, or field hockey.

Mike and Randy Chretien, Alon Burgess and Timothy Ramo, U. of M. students, are spending some time at home this week.

SELECTMEN APPOINT NEW TOWN MANAGER

The board of selectmen of Bethel have appointed Elwyn N. Dickey of Monroe as town manager to succeed Michael Houlihan who recently resigned to accept a similar post in Freeport. It was announced today, by James Hutchins board chairman.

Mr. Dickey was born in Winthrop and is 39 years old. A graduate of Monroe high school in 1944, he recently completed courses in Municipal Finance and Supervisory Practices sponsored by the University of Maine for municipal officials.

He is a member of the Maine Managers Association and Central Maine Managers Association, the IOOF, Masons, Waldo County Extension Association, currently serving as Agricultural Economics projects leader and a member of the Executive Committee, and is a member of the Monroe Community Church.

Mr. Dickey has been manager of Monroe since April of 1965. Previously he had operated a poultry and dairy farm. He also has served as a selectman in Monroe and a director of SAD #3.

He is married to the former Phyllis Giggie of Monroe. They are the parents of two daughters, ages 12 and 15.

It is expected that Mr. Dickey will start his duties in Bethel on Monday, Jan. 30.

PLANNING BOARD MEETS —PUBLIC HEARING FEB. 23

On Wednesday evening, Jan. 25, in the selectmen's office, Henry Hastings, Norris Brown, Earlon Patne, Carroll Valentine, Ted Chadbourne, and Ruth Ames of the Bethel Planning Board; John Philbrick of the Maine Department of Economic Development, Richard Waldron of the Board of Appeals, and Mrs. James Hudson met with Lewis Lubka of the James W. Sewall Co., of Old Town.

The zoning ordinances and maps were thoroughly reviewed and the decision was reached to submit them to the voters at the annual town meeting, March 6. To comply with Maine law the Planning Board will hold a public hearing on the zoning ordinances on Feb. 23.

V. A. NEWS LETTER

A veteran's eligibility for a GI loan is not restored when he sells his GI-purchased home and obtains a VA release from liability to the Government on the loan, Harry V. Flussi, Director of the Togus VA Center warned.

Release of the veteran from liability to the Government does not affect the VA's guaranty on the loan. As long as the guaranty to the lender is outstanding, no restoration of GI loan rights can be granted the veteran.

However, even if the loan is paid in full, thus relieving the VA of liability to the lender, a veteran's entitlement to another GI loan may be restored only when the property:

a. was taken by a governmental agency for public use.
b. was destroyed by natural hazard, or
c. was disposed of for compelling reasons such as health, employment transfer, change to a better job in another city, or other reasons considered sufficient by the VA.

In such cases, veterans may apply to the VA Office which processed their loan for restoration of entitlement.

GOULD ACADEMY

Coach Barth and his Nordic ski team members were hosts to several neighboring school teams at a practice this week at which Art Tokle, National Jumping coach, instructed. Art Tokle of Lake Telemark, New Jersey, has been one of the nation's leading ski jumpers for over a decade. He was the U. S. National Ski Jumping Champion in 1951 and 1953. He has competed across the United States and Canada and Scandinavia. Tokle is considered a most valuable coach by USE ASA not only because he understands proper techniques, but because he also can diagnose why a jump is not up to par and help a jumper correct his faults.

The second semester social activities begin with "a Big dance" sponsored jointly Saturday night by the Biology Club and the Camera Club—with a Student Activity Council subsidy. The clubs have hired the Bobby Deal Alliance Band. Decorations will be planned by Sue Pollack and Merton Brown on "an imaginative theme." This is an all school dance and the clubs concerned have planned to make it fun for everyone. Committee members for Biology Club have been Beth Sargent, Vicky Brown, Sally Boynton, Kris Smith, Pam Douglass; for Camera Club, Joan Frankiewicz, Bill Eames, and many others.

The Theater Arts Department will be hosts to drama groups from neighboring high schools this Saturday for a theater workshop. Director of the Workshop will be Dr. James Bost, Associate Professor of Speech at the University of Maine. The workshop will open at 9:30 a. m. and continue through the day working on scenes from "Midsummer Night's Dream," "Pygmalion," and "The Glass Menagerie." Visiting drama coaches will be the guests of the Academy at lunch. Gould Theater Arts students will entertain visiting students at a box lunch and social hour in Bingham Gym. The purpose of the workshop is to give theater arts students the opportunity to work under the expert direction of Dr. Bost.

Headmaster Edmond Vachon is pleased to welcome the University of Connecticut's 70-piece band, which will perform in Bingham Hall on Wednesday, Feb. 1, at 8 p. m. Under the baton of Associate Professor Allan Gillespie, the band will present a program of contemporary pieces, the old classics, stirring marches, and popular show tunes. Band members will be the guests of the Academy for meals and overnight lodging.

SKI TIPS

#4 STRAIGHT DOWNHILL RUNNING POSITION

By Ace Manley
Director, Big Bromley Ski School

Perhaps the best exercise for the beginner to develop good balance and coordination is the straight downhill running position.

Before starting this maneuver, the skier should pick out a very gentle slope with a long run-out at the bottom having no obstructions. This is especially important since this is probably the skier's first downhill running or free motion skiing.

At the start, the skis are flat on the snow and close together (about four inches apart). The knees and ankles are flexed forward, the weight equally distributed on both skis, and the body perpendicular to the slope.

This form and motion should be practiced many times before any further progress is attempted. The balance and coordination achieved at this point will be of significance later.

TOWN OF BETHEL TO GET SOIL SUITABILITY MAPS

Lorone Damon, Chairman of the Board of Supervisors for the Oxford County Soil and Water Conservation District announced recently that Soil Suitability maps for the town of Bethel will be provided through the District.

These suitability maps will be used as a guide by the town officials in broad, long-range land use planning.

The soil maps provide an insight into the problems or hazards in some fifteen phases of land use in the general fields of agriculture, recreation, woodland, wildlife, urban and industrial development.

The specific phases of development include camp and cottage sites; house building with septic sewage disposal; permanent tenting and picnic area facilities; pipe and sewer lines; road construction, earth sand and gravel; golf courses, wetland wildlife development; wilderness tent sites, pond building; dump and junk yard locations; lagoon sewage disposal; heavy building sites; playing fields and shooting ranges; home building with public sewage disposal; trailer park sites and suitability for planting White Pine.

The suitability ratings are Good, Fair, Poor, Very Poor or Unsuitable. Good means the area of soil and topography has no or slight natural or economic limitations for the kind of use or development being considered. A Fair rating means the area has moderate natural and economic limitations, but can be used with good management for the kind of use considered. A Poor rating or unsuitability means that moderate to severe natural and economic limitations exist, but can be used with good corrective measures and good management. Very poor or unsuitable means the areas of soil and topography that have very severe natural or economic limitations that make it extremely expensive or impractical to use the area for the particular kind of use or development being considered.

Some of the soil and water conservation districts used in the rating of the soil are: Dixfield, Bethel, and Kearsarge. The rating is based on the soil and water conservation districts used in the rating of the soil are: Dixfield, Bethel, and Kearsarge.

An informational meeting on the value of soil maps in land use planning will be held Wednesday 8:00 a.m. at the District Office in the Main Building, South Paris. Town officials, residents and county officials have been invited to attend.

FEDERAL GRANT TO ASSIST SMALL MAINE HIGH SCHOOLS IN GUIDANCE PROGRAMS

The University of Maine Cooperative Extension Service has received a \$24,000 federal grant to assist small Maine high schools develop guidance programs.

Harold M. Kearney, youth education specialist and director of the new program, says its purpose is to show the small schools how to work together to provide guidance services for students.

Of the 219 public high schools and academies in Maine, 71 have no guidance director, says Kearney. Thirty-three of the 42 private academies have no counseling service.

In the lower grades, 19 of the 45 formal junior high schools have no guidance service, says Kearney, and a large number of the seventh and eighth grade students in strictly elementary systems have no expert counseling to prepare them for selecting high school courses.

George Ezzy of Van Buren has been appointed to work with groups of small schools and help them set up cooperative guidance programs.

"We will try to stimulate towns to see the value of a guidance service and develop a program for themselves," says Kearney, who also directs the University's Upward Bound program.

"We hope to show them how they can cooperate and get a guidance service at a reasonable cost, and how to take advantage of state and federal subsidies," he says.

Ezzy, a master's degree candidate in guidance at the university, will provide counseling service to the school while he is helping them plan a full-time program.

A graduate of Van Buren High School, Ezzy attended Fort Kent State College and received his B. S. degree in education from Farmington State Teachers College in 1961. He has taught at Van Buren High School and Hermon Junior High School.

Mrs. Florence Holder was a guest of Mrs. Maurice Gerrior in Shelburne, N. H., Saturday.

Mr. and Mrs. Carl Lamont of Portland spent a few days at their camp on the North Road.

Mrs. Jane Smith has returned home from the Stephens Memorial Hospital, Norway.

SEWALL REPORT

continued from Page One
gram would recommend the acquisition of a large tanker (about 4,000 gallon capacity) for the fire department, plus radios on each truck and a base radio at the fire station.

The work on the sidewalk and road program would continue during this period. An area should be acquired for a public park in the area near the Androscoggin Bridge on Route 2. Also advocated are the extension of the present runway at the Bethel Air Park or the development of a new runway or both. Exploration of the possibility of a joint facility with nearby towns might be feasible.

During the years of 1977-88 construction of a local medical health center containing facilities for diagnosis, mental health, mental retardation would be recommended, along with the acquisition of a site on Songo Pond for a public beach, swimming and boating facilities. During this time also the public sites acquired earlier should be developed and the road and sidewalk programs continued.

According to the report the cost of the first five years of the program would be \$100,000 to be financed by annual capital program appropriations of \$20,000 each year, 1967-68-69-70-75.
